## Oregon State University Movement in Primary College

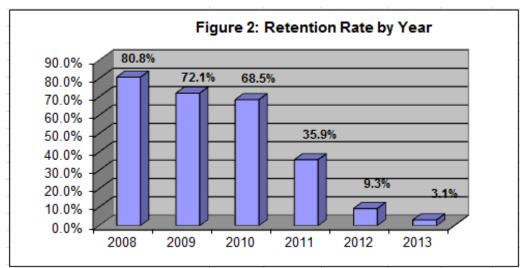

Fall Term 2007 Cohort Class

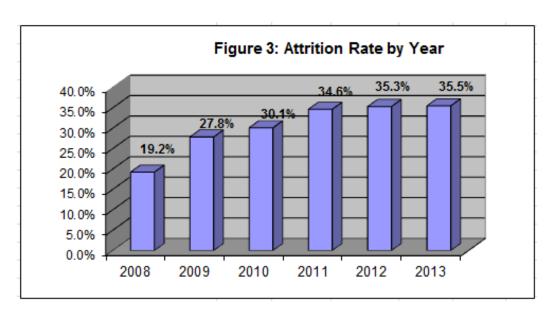

This is a study of the cohort of first time, full time (credit hours greater than or equal to 12) degree seeking undergraduate students enrolled in the Fall Term of 2007. The study provides detailed information on enrollment, graduation, retention, attrition, and change in college (based on primary major) of the cohort class over a 1-year to 6-year time span. With this study, each college can track the migration patterns of their students and determine the graduation, retention, and attrition rates of students in their college cohort from 2007-2013.

There were 2,973 students in the Fall Term 2007 cohort class enrolled in colleges/programs at the university. Table 1 contains the student graduation, retention, and attrition numbers and percentages for 2011 (4-year), 2012 (5-year) and 2013 (6-year). The data show that in Fall Term 2013, there were 92 students from the cohort continuing their study at the university. Figures 1, 2, and 3 depict the graduation, retention, and attrition rates by year for the Fall Term 2007 cohort class. The six-year graduation rate for Fall Term 2007 cohort was 61.5%. The first year retention rate for the Fall Term 2007 cohort was 80.8% which also translates into 19.2% of the students from the 2007 cohort did not return for a 2<sup>nd</sup> year of college at OSU.

Table 1: Fall Term 20	007 Coh	ort Gradua	ition, Re	tention, a	nd Attrit	ion Rates
Fall 2007 Cohort	2	011	20	012	2	013
	Number	Percentage	Number	Percentage	Number	Percentage
Graduation	878	29.5%	1,647	55.4%	1,827	61.5%
Continuation	1,066	35.9%	277	9.3%	92	3.1%
Attrition	1,029	34.6%	1,049	35.3%	1,054	35.5%
Total	2,973	100.0%	2,973	100.0%	2,973	100.0%

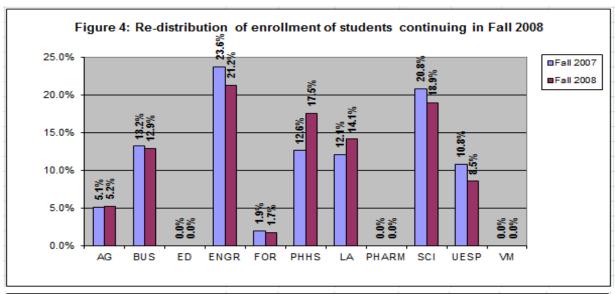

For students who graduated from OSU, a large proportion graduated from colleges other than the one in which they had initially enrolled in Fall Term 2007. Table 2 lists the numbers of students who graduated from their original colleges and from other colleges they transferred to by year. By the end of Summer Term 2013, 61.5% of students (1,827) in the cohort class had graduated; 62.6% of the graduates (1,143) graduated from the same college in which they originally enrolled in Fall 2007 and 37.4% (684) graduated from other colleges. Students who stayed in the same college in which they originally enrolled graduated sooner than those in the cohort who changed colleges.

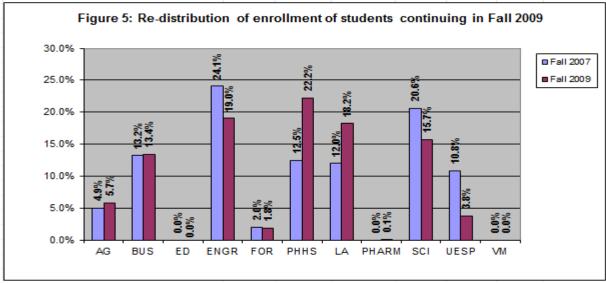

Table 2: Graduation	in four, f	ive, and s	ix years			
Fall 2007 Cohort	20	011	20	012	20	013
	Number	Percentage	Number	Percentage	Number	Percentage
From the same college	612	69.7%	1,055	64.1%	1,143	62.6%
From other colleges	266	30.3%	592	35.9%	684	37.4%
Total graduation	878	100.0%	1,647	100.0%	1,827	100.0%

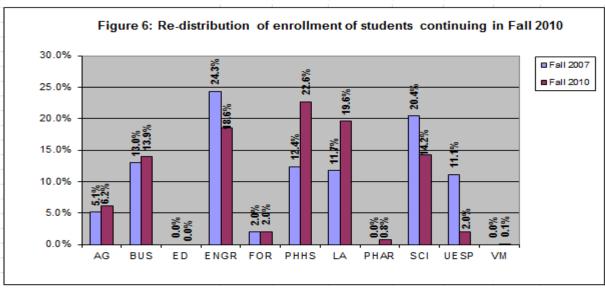

In the group of continuing students, some continued in the same college and some transferred to other colleges. Table 3 contains the net gains and losses of students by college for each year. The Colleges of Engineering, Science, and the University Exploratory Studies Program consistently lost students to other colleges. The Colleges of Agricultural Sciences, Public Health and Human Sciences, and Liberal Arts gained students from other colleges each year.

Details on the redistribution of continuing students are provided in Figures 4-9.

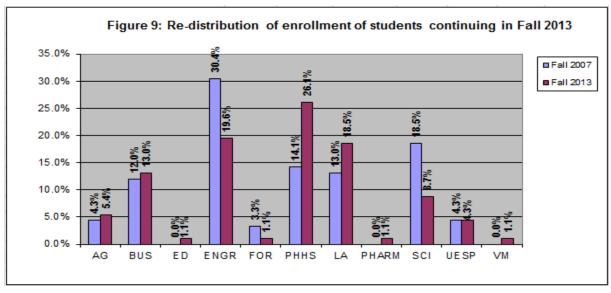

Tables 4-9 contain retention and graduation data for each college from Fall 2007 to Fall 2013 for the Fall 2007 cohort. The shaded columns in the top table on each page denote the college that students moved to, listed by college. For example, in Table 4, the College of Agricultural Sciences has 146 students in Fall Term 2007 cohort class. 24 Agricultural Sciences students left OSU after their first year. Of those who stayed, 103 continued in Agricultural Sciences, 2 transferred to Forestry, 5 to Public Health and Human Sciences, 6 to Liberal Arts, 5 transferred to Science, and 1 transferred to University Exploratory Studies Program. This results in a 16.4% attrition rate after one year for the college of Agricultural Sciences. The continuation rate - those students who remained in the College of Agricultural Sciences is 70.5% (122/146). The overall retention rate at OSU for this cohort (Agricultural Sciences) is 83.6%.

The second table on each page contains the net gain or loss by college for the freshman cohort. Again, for Agricultural Sciences, 2 students were gained from Business, 2 from Engineering, 1 from Forestry, 3 from Science, and 1 from University Exploratory Studies Program. At the same time, 2 Agricultural Sciences students transferred to Public Health and Human Sciences, and 4 transferred to Liberal Arts. These changes resulted in a net gain of 3 students.

Over the course of this study, Public Health and Human Sciences and Liberal Arts consistently gained the most students from other colleges. University Exploratory Studies Program consistently transferred more students to other colleges; this is expected given the purpose of University Exploratory Studies Program. With University Exploratory Studies Program omitted, the College of Engineering and the College of Sciences had the most students transferring to other OSU colleges over the course of the study.

The graduation results for this cohort begin in Table 5, Fall 2007 -Fall 2009 but for explanatory purposes we'll reference Table 6 since there are more examples. Table 6 shows that the original freshman cohort totaled 2973 and that a total of 42 students graduated resulting in a three year graduation rate of 1.4% (42 / 2973). Of the 42 graduates, 35 students graduated from the college where they initially enrolled and 7

students graduated after transferring to another college within OSU. Detail information reveals that of the 42 total graduates, five graduated from Agricultural Sciences. Four students from this subset remained with Agricultural Sciences from the beginning and 1 student graduated after transferring to another college. Agricultural Sciences has a graduation rate of 3.4% (5 / 146).

After four years (Table 7) the total number of graduates increased to 878 giving a 29.5% four year graduation rate. 60 students graduated from the Agricultural Sciences cohort of 146 resulting in a 41.1% graduation rate. Twelve of the students graduating from the Agricultural Sciences initial cohort transferred to another college.

For the fifth year (Table 8), 95 students in the Agricultural Sciences cohort had graduated; however, only 73 students graduated from Agricultural Sciences. The other 22 students graduated from other OSU colleges. The overall five-year graduation rate for the University is 55.4%

The sixth year (Table 9) graduation rate for Agricultural Sciences was 67.8% with a total of 75 students from the Agricultural Sciences cohort graduating in Agricultural Sciences and 24 graduating from other OSU colleges. OSU's six-year overall graduation rate is 61.5%

Almost 37.4% of the students who graduated from OSU after six years graduated from a different college than the college where they were initially enrolled. The implications of this information in terms of advising and helping students to transition from college to college seems particularly appropriate.
