Cohort: first-time college, full-time degree seeking undergraduates admitted for fall term or preceding summer term.

First-time: never matriculated as degree-seeking students at another college or university.

Full-time: enrolled in 12 or more credit hours in first fall term.

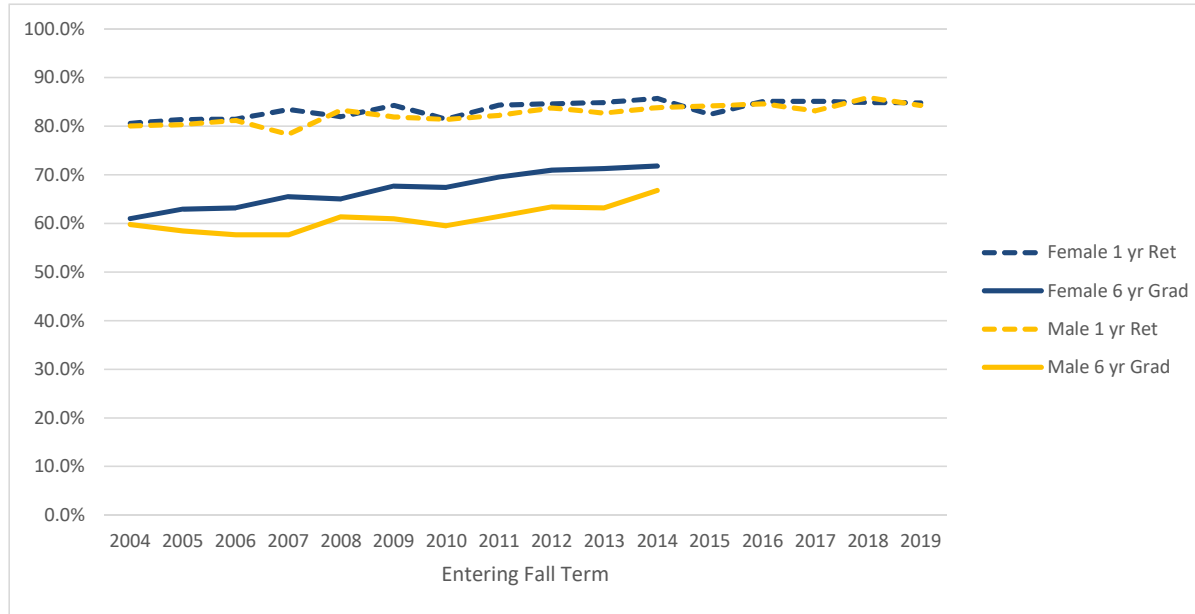

Retained: enrolled in a subsequent fall term but not yet graduated.

Graduated: received first bachelor's degree by the summer before the given following fall term.

Example, 6 year graduation counts degrees earned up to the summer before the seventh fall term.

2014 College Cohort 6 yr Grad Rate by Percent Pell

Pell percent provides a partial explanation for differences in college 6 year graduation rates, although many factors affect these rates.

Since Pell students have lower graduation rates than non-Pell students, we expect lower graduation rates in colleges with higher Pell percent.

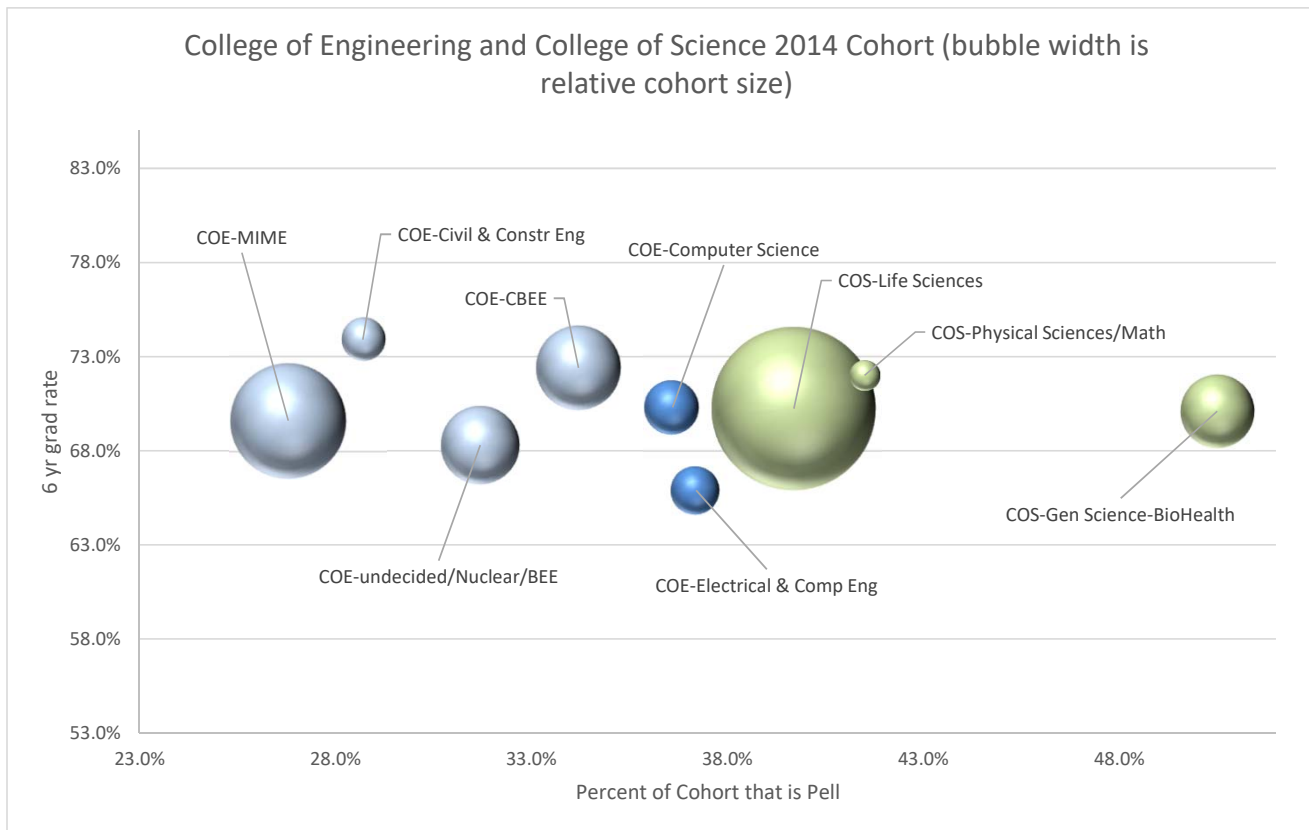

For the 2014 cohort, the following colleges are performing above expectation:

Science, Agricultural Sciences, Liberal Arts, Public Health & Human Sciences and Forestry.

Forestry increased by about 5%, Liberal Arts was about the same rate as the prior year and Public Health saw a 2% drop, but all increased in percent Pell.

Bubble widths provide the relative proportion of entering college cohorts. The next chart breaks up two of the larger cohorts into discipline groups.

2014 College of Engineering & College of Science Cohort 6 yr Grad Rate by Percent Pell

Engineering saw across the board jumps in grad rates except for CBEE which dropped from an extra-ordinarily high level the previous year. But it is still second overall. Percent Pell varied greatly by group which was not the case the prior year.

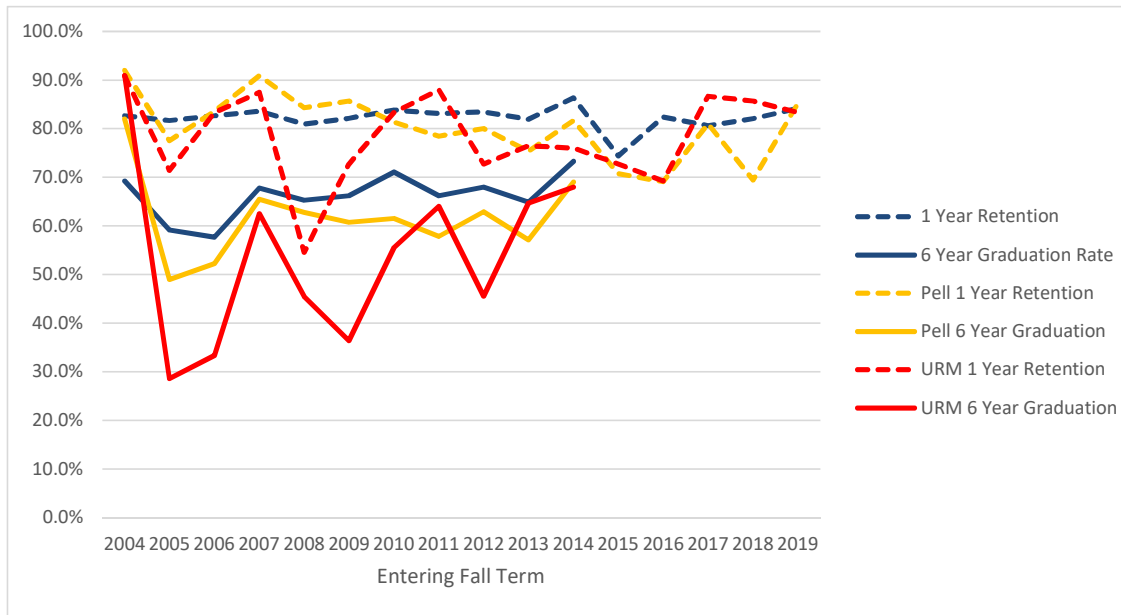

Electrical & Computer Engineering had the smallest increase in grad rates but saw an increase in percent Pell students.

Life Sciences maintained its high grad rate while General Science/BioHealth Sciences saw a small increase on already high level. BioHealth Sciences' high grad rate is all the more impressive given that it has a high proportion of Pell students.

Physical Sciences/Math had the largest increase from about 55% the prior year to 72% this year.

Cohort: first-time college, full-time degree seeking undergraduates admitted for fall term or preceding summer term.

First-time: never matriculated as degree-seeking students at another college or university.

Full-time: enrolled in 12 or more credit hours in first fall term.

Retained: enrolled in a subsequent fall term but not yet graduated.

Graduated: received first bachelor's degree by the summer before the given following fall term.

Example, 6 year graduation counts degrees earned up to the summer before the seventh fall term.
